

What is in Your Log Book?

The preflight inspection is a thorough and systematic means by which a pilot determines if the aircraft is airworthy and in condition for safe operation. At this interesting Safety Seminar Captain Bill Machauer and Byron Hamby will be presenting information which will help you as owner/operator in determining the airworthiness of the aircraft you fly. Steve Parker will then lead an interesting discussion concerning night approaches in New Jersey. Please register for this event online as seating is limited!

Directions: Meeting room in basement.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
